Michael McMurray

Support Operations & Automation Leader

Nearly six years leading support operations, partner programs, and cross-functional delivery at Edge. I design automation and self-service systems, run CRM migrations, and use AI daily to architect scalable workflows that teams actually adopt.

Get in Touch View Experience

About

I am a Strategic Support Operations Leader with experience scaling business processes in fast-paced tech and Web3 environments. Over my five years in leadership at Edge, I drove operational efficiency by bridging the gap between technical engineering teams and commercial partnerships.

I specialize in leveraging AI tools (like Claude and Gemini) to architect scalable automation workflows, streamline intake triage, and standardize knowledge management. I thrive on translating complex technical dependencies into actionable, cross-functional execution plans that help remove inefficiencies.

Open to Customer Success, Support Operations, Enablement, and Onboarding roles — US Remote or Detroit Metro.

Experience

Head of Customer Success and Project Planning

Edge (Airbitz Inc.) | Sep 2020 – Jun 2026

- Led and mentored a team of 4+ support agents through hiring, onboarding, training, and performance management for B2B and B2C users and commercial partners.
- Architected a 7-board automated Kanban system in Asana (1 Master + 6 departmental boards) with multi-homing, WIP limits, and 9+ cross-board automation rules.
- Built 750+ self-service articles, macros, and AI chatbot workflows; led helpdesk migrations Freshdesk → Zendesk → Intercom with zero downtime.
- Authored playbooks and operating manuals; ran structured training across Engineering, QA, Design, Marketing, BizDev, and Support.

Owner & Independent Contractor

Freelance Media Production | Oct 2015 – Sep 2020

Operated an independent video production business. Managed contract negotiations, deliverables tracking, and subcontractor hiring, alongside full post-production pipelines using Adobe Premiere Pro and DaVinci Resolve. Deployed on-site networking and POS setups for high-volume events.

Caseworker / Direct Care

CSDD - Life Enrichment Academy | Oct 2009 – Oct 2015

Managed confidential client files, ensured strict compliance, and secured essential program funding. Developed individualized enrichment programs and provided compassionate direct care.

Core Expertise

■■

Support Operations

Intercom, Zendesk, Freshdesk, CRM migrations, escalation management, B2B partner onboarding

■

Automation & AI

Asana orchestration, AI chatbot workflows, self-service architecture, Cursor-assisted process design

■■

Web3 & Crypto

dApps, fiat-to-crypto onramps, transaction troubleshooting, wallet and key recovery

■

Media Production

Adobe Premiere Pro, DaVinci Resolve, FL Studio, event IT and on-site production ops
